End the occupying state of Israel's harassment of Palestinian lawyer and human rights defender Salah Hammouri and raise awareness about the systematic and brutal policies against the Palestinian people.

INJURY

Salah, age 15, is shot with live ammunition by Israeli occupation forces while participating in a demonstration in Jerusalem.

BANS

Salah was banned for a period of 18 months from traveling to designated areas within the occupied West Bank. The ban obstructed Salah's academic and professional career.

ARRESTS SENTENCES

FAMILY SEPARATION

Salah's wife Elsa was deported to France in 2016 and has not been able to return to Palestine since then.

SPYWARE INFILTRATION

Salah was illegally hacked by Israeli NSO developed Pegasus spyware in 2021.

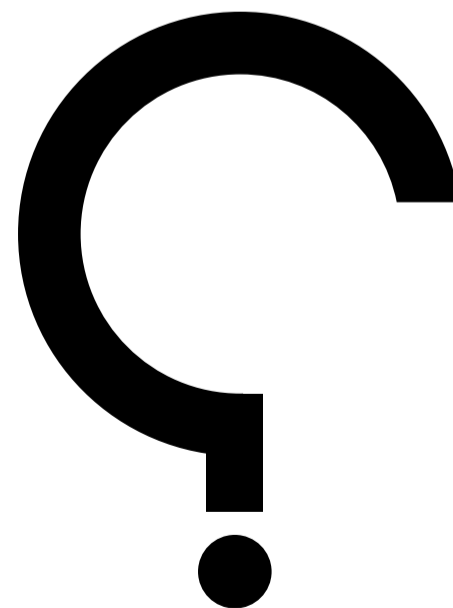

ID-REVOICATION

Salah received a decision of his residency revocation on the 17th of October 2021 by the Israeli minister of Interior Affairs. As a result, Salah lost his right to movement, work, National Social Security, and health insurance. Currently, Salah is at risk of forcible transfer from his hometown Jerusalem.
